PRODUCT : SPILLAGE PALLET
[ONE PIECE MOULDED SPILLAGE PALLET WITH FRP GRATINGS]

Over All Dimensions :
L-1300 mm x W-1300 mm x 200 mm

Material Of Construction :
Special Grade Virgin LLDPE
FRP Pultruded I-Section + Solid Rods

Spillage Capacity :
Approx 175 Ltrs Storage Capacity

FEATURES :

- **Best raw material base** Using Special Grade Virgin LLDPE Material of Reliance, ONGC & GAIL
- **Storage Space to contain spillage** Pallet has approx 175 Ltrs storage capacity
- **Good Load Bearing** Using FRP Pultruded Gratings made out of I-Section and Solid Rods for high load bearing strength
- **Chemical Resistance** Containers are suitable to store all kind of Chemicals, Acids and Alkalies
- **Temperature Resistance** Container can perform in temperature up to (-20) to 60 degree
- **Made using latest manufacturing technique** Excellent Finish as well as dimensional consistency
- **Easy to Drain** Providing drain plug provision for drain Spill Over Oil & Chemical
- **Reasonable Cost** Maintenance free hence reasonable in cost by every trip
- **Standard Color : Blue** ** Also can be produced in different color as per requirement of customer

MARKET SEGMENT :

- Chemical Industry
- Petroleum & Oil Industry
- Pharmaceuticals Industries
- Food Industries
- Engineering Industry
